

CYLINA SERIES

SURFACE & PENDANT MOUNT
POWER SELECTABLE

Pendant & Surface Mount

Crafted for optimal visual comfort and meticulously engineered for exceptional performance, our LCS and LCP series from Luminoso LED lighting offers an array of possibilities and versatility in combinations.

LCP & LCS Series

Discover a myriad of architectural cylinders from Luminoso LED, designed to infuse rhythm, beauty, and creativity into virtually any setting. Embrace the allure of their sleek aesthetics and uniformly soft illumination through our exquisite selection of Architectural Performance luminaires, empowering you to elevate modern interiors, encompassing offices, restaurants, hotels, and upscale residential ventures.

LCP Series (Pendants)

Integrating timeless aesthetics with high-performance COB LED technology, these models seamlessly create delightful, uniformly illuminated indoor spaces.

Designed to deliver exceptional visual comfort, these cylinders offer a diverse array of beam options, coupled with a comprehensive selection of trim and mounting choices. Embrace the freedom of lighting design with our collection of cylinders, providing unparalleled flexibility for both commercial and institutional applications.

LCS Series (Surface Mounted)

Available in a surface mounted version, the LCS series allows designers to maintain aesthetic continuity throughout a space. It is the ideal choice for low ceilings, high ceilings, and minimal ceiling spaces.
