

Our Surface Mount lighting designs open up endless possibilities, catering to both commercial and residential spaces. Offering modular lighting solutions with a range of sizes, beam options, and a standard configuration of high visual comfort COB LED, these luminaires provide stunning and sleek surface mount configurations that enhance any environment with their elegant and slender design. Experience the versatility and aesthetic appeal that these surface mounts bring to your entire living or working area, whether it be in a commercial or residential setting.

### Feature

- Embrace the versatility of our modular design.
- Choose from COB LED chip options: standard 80+ or optional 90+ for enhanced performance.
- Dimming options: 0-10V with standard 10% dimming, optional 1%, or optional TRIAC dimming.
- Tailor the lighting to your needs with beam angle options of 15°, 24°, 36°, or 60°.
- Light engine available in 4", 6", and 8".
- Surface mount.
- Wattage selection allows for further customization based on your requirements.

### Performance

Dimension	Wattage Selectable	Efficacy	Lumens
4"	25W / 20W / 15W	95 lm/W	1140 - 2350lm
6"	40W / 30W / 20W	105 lm/W	2100 - 4200lm
8"	60W / 48W / 36W	90 lm/W	2610 - 5220lm

\*Above apply to 3000K, 80+ CRI values only. Check the IES file to gain the other accurate data.

## LCS Surface / Cylinder Surface / (Selectable Wattage)

### Optics

Experience the cutting-edge technology of our advanced lighting solution, driven by a high-efficiency COB LED chip. With an array of versatile beam spread options including 15°, 24°, 36°, and 60°, our fixtures offer precise control over the direction and distribution of light. What sets our product apart is the convenience of interchangeable cylinder beam spreads, allowing effortless swapping in the field without the need for additional tools. Stay in control of your lighting experience with our innovative and adaptable solution.

### Finish

Our fixtures are made of rigid die-cast aluminum and feature a standard powder-coated polyester paint finish in white or black.

### LED System

COB	COB LED with a 80+ CRI is standard. 90 CRI is also available upon request by consulting the factory. They have been tested in accordance with IESNA LM-80 and the results have shown L80 lumen maintenance greater than 50,000 hours.
CCT	2700K, 3000K, 3500K and 4000K available.
Thermal Management	The lifespan of our product is maximized by our aluminum housing, which serves as an effective heat sink for optimal heat dissipation.

### Listings

- cULus listed for damp locations
- 5 years limited warranty

**NOTE:**

- Ensure optimal performance by maintaining ambient temperatures below 104°F during regular operation at the fixture location.
- For indoor use only

### Optional Emergency Battery Backup

We offer an optional emergency Battery Backup, EMBI. In the event of an AC power failure, it promptly switches to the emergency mode, providing illumination for up to 120 minutes. Once AC power is restored, it automatically returns to the charging mode, ensuring compliance with critical life-safety lighting requirements. For more information please contact us.

### Electrical

LED Driver	Equipped with a Class 2 high-efficiency LED driver, featuring a standard 0-10V dimming functionality that smoothly dims down to 10%. This dimming capability is compatible with a wide range of control systems, including: Lutron® Diva-DVTV, Leviton® IP-710-DL.  TRIAC dimming is also offered as an option, dimming down to 1%. Consult Vendor.
THD	<20%
Power Factor	>0.9
Input Voltage	Standard electronic drivers are cULus recognized and available for 110-277V AC or 110~347V AC.

### Mounting

**For Standard J-box**

Easily mount the Cylinder fixture directly to any recessed (standard) J-box, including 3" octagon, 4" octagon, or 4" round sizes. Simplify your installation process with this seamless solution.

**NOTE:**

- 6" will mount directly on to a standard J-box with no visible canopy.
- 4" and 8" canopy will be visible.

**For Pancake J-box / Pan box**

When using a surface-mounted or Pancake 4" J-box, we offer a Ø5.97" round canopy that is 2.38" deep with a conduit cutout for easy installation. The canopy features four key slots, one on each side, allowing seamless configuration to fit any ceiling layout using 1/2" or 3/8" conduit. You can choose from a white or a black powder coat painted finish for the conduit cutout canopy, ensuring a sleek and adaptable solution for your mounting needs.

### Conduit Knockout Canopy Option

**Emergency Lumen Output:**

Fixture Efficacy	Output Power 8w
80 lm/w	640 Lumens
